abode

Made To Be Seen.

For homes you're proud to show off — and dogs you love to live with.

INSPIRED BY OUR DOGS. BUILT FOR YOURS.

As first-time dog parents to Ollie and Leo, we struggled to find a crate that felt right in our homes. Wire crates were cold and intrusive, while the sleeker designs were priced out of reach.

We wanted something different: a refined, accessible space that blended beautifully into the home while giving our dogs the comfort they deserve.

At Abode, we create thoughtfully designed pieces that bring comfort, beauty, and connection into your home, for you and your pet.

OLLIE (LEFT), LEO (RIGHT) - CHIEF PUP OFFICERS

Meet The Founders

VICTORIA CARVALLO

Finance & Writer

With a background in finance and storytelling, Victoria brings both structure and imagination to Abode, shaping its voice, vision, and future. As Ollie's dog mom, she knows firsthand how much our homes (and our dogs) deserve that care.

ANA LUISA YANES

Brand Designer & Art Director

Shaped by years in the branding world, Ana translates strategy into brand positioning and visual worlds across design and packaging. A dog mom first, she brings both professional expertise and personal perspective to everything Abode creates.

FREDERICO VIVACQUA

Investor

Background in investment banking and private equity. As a dog parent to Ollie, he was excited to invest in an idea that would help parents and pets alike.

DIEGO AGÜERO

Finance & Private Banking

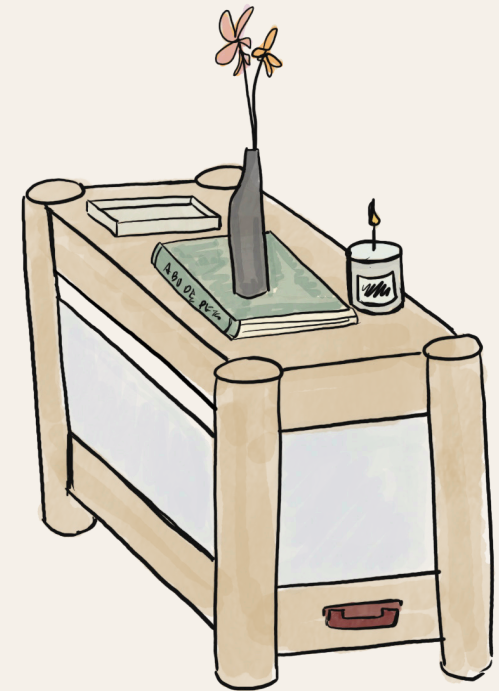

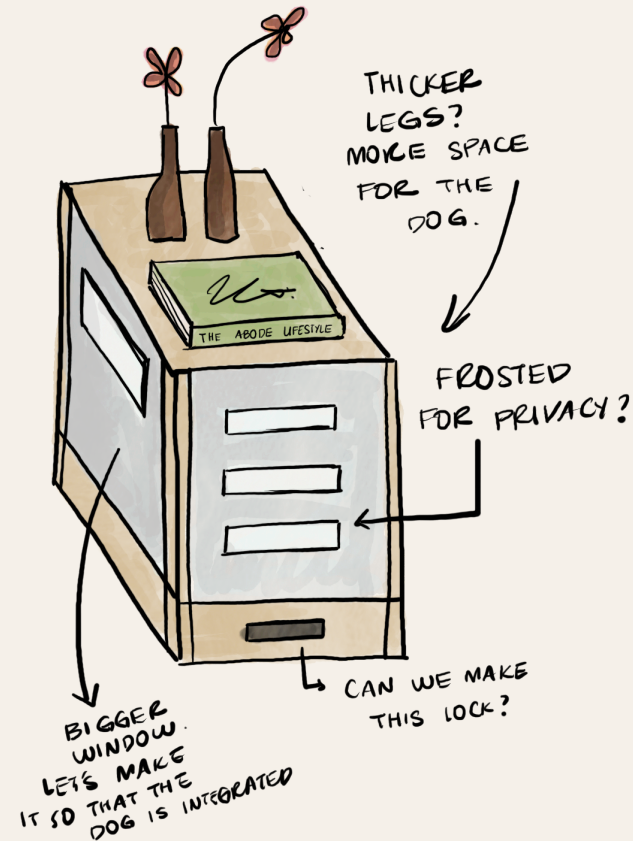

As a dog parent, Diego co-founded Abode to create something made to last — for dogs and the homes they're part of. With a background in private banking, he believes lasting businesses are built on strong relationships. Living with a Shiba has taught him patience and high expectations.

Crafted With Intention

It started with sketches on paper — proportions, materials, and finishes.

We partnered with California-based designers who shared our obsession with pets and interiors, refining every curve, joint, and surface until The Den was born.

Not just another crate, but furniture reimaged: intentional, modern, and made to belong.

THE CRATE CONUNDRUM.

Cold wire. Overpriced design.
Nothing in between.

We built the Abode Den to meet
you in the middle — design that
belongs in your home, comfort
that belongs to them, without
the unnecessary markup.

**A CRATE THAT DOESN'T
ASK YOU TO COMPROMISE**

FORM MEETS FUNCTION. FINALLY.

Meet The Den.

A room for your dog.

CLEAN COMFORT

Water-resistant, laundry safe cover keeps their spot fresh with minimal effort.

CRATE TO DEN, FAST

Tuck-away door with smooth rails + secure lock lets you switch from crate to open den in seconds.

FUNCTIONAL DESIGN

Doubles as a side table or nightstand and looks great from every angle.

CONNECTED SPACES

Frosted acrylic sides and a front window create a cozy hideout your pet will love—while still feeling part of the family.

DESIGNED TO FIT

Every dog deserves a space that feels just right.

Whether you live in a compact apartment or a spacious home, The Den is proportioned to fit seamlessly into your life — and perfectly into theirs.

Sized to sit neatly beside a sofa or bed, while spacious enough to be their go-to hideaway. Available in two thoughtfully crafted sizes.

The first of many pieces designed to fit seamlessly into our pets lives.

MADE FOR OUR DOGS

THE DEN

Our Den is built with real furniture-grade plywood and solid wood, sealed and finished to be safe for our pets. All edges are pre-rounded and sanded smooth — no splinters, no metals with collar choke risk.

THE BED

The bed has a water-resistant, machine-washable cover. If a dog has an accident, take the cover off, throw it in the wash, and put it back on — the cushion stays clean. Covers can be replaced individually, so there's no need to throw out the whole cushion.

The Den is designed for most dogs, but isn't recommended for strong chewers or for dogs small enough to fit their head through the side windows.

abode x  **FZUO**

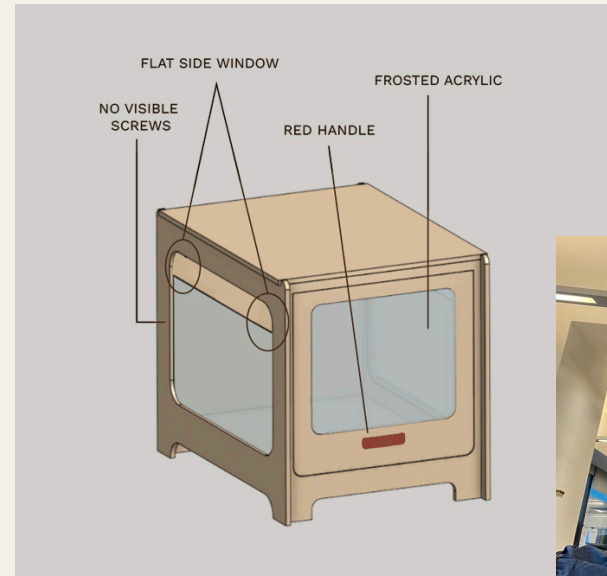

ABODE X FLUO FOR ALPHA SCHOOLS

In collaboration with FLUO Education, we've created a version of The Den simple enough to build by hand.

Same real wood, same pet-safe finish, same cozy feel — just designed for Alpha students to assemble.

Every crate built in the workshop is donated to a shelter, where a dog in care will use it as their quiet space.

Home is for everyone. Even for dogs still looking for their forever home.

LET'S COLLABORATE

We're looking to grow our family of collaborators — storytellers, dog-lovers, and design-minded voices who want to shape the future of pet living.

If that sounds like you, let's connect. We're open to gifting, collaborations, content partnerships, and other creative projects.

Together, we can make something bigger than a product — a new standard for living beautifully with pets.
